

August 15<sup>th</sup> - 19<sup>th</sup>

*New!*  
**JUNK Art!**

Building Creativity is what this week is all about! **Imagine getting to create your own unique sculpture** using everyday items from around the house! *Bottles, buttons, spools, cans, plastic, metal, CD's, broken toys, beads, rope, springs, chains, nuts, bolts,* the possibilities are endless! With help from your teachers you will not only **design**, but **construct** and **paint** your own **JUNK Art** to take home with you! *This will be a week to remember!*

- Last week we watched some great new and classic movies as voted on by the students. They included; The Aristocats, Milo & Otis, Despicable me, Snow White, Brother Bear, Up and more! **Watch for your students photography to come home this week!** Some of the photos they took from their perspective are so clever! We definitely have some potential photographers in our school. :-)
