

January 7-11 & 14-18 2008

VSDFH#Zrqghu#dqg#H{ sorudwlrq##  
#

Over the next two weeks our theme topic will be **SPACE: *Wonder and Exploration!*** Students will learn about the various objects found in our solar system, as well as, fun facts about the Planets found in space. We will also learn about the history of space travel, and important events that have marked milestones in the ongoing quest to explore the "final frontier". Lastly, the students will find out that they have a chance to be the next space explorers – with hard work, and a love of adventure and exploration, they to can blast off into VSDFH##

#

In the classroom...

- ★ Look for the new Phonics / Reading pocket chart that we will be using to reinforce learned vowel & consonant sounds as well as initial, medial, and final sounds and more!
- ★ Look for the new lessons that come home on vocabulary building, sentence order and structure, handwriting, sight word identification, and drawing lessons!
- ★ Look for new stories on tape, and new library books, as well as the new Primary Phonics Readers in our classroom library.
